CASE ASSIGNMENTS

Here are the final case assignments for the 30 students in the class. The students who listed the first case as their first or second choice were assigned to that case. Most other students were assigned to their first choice, but some were assigned to their second (or, in a few cases, their third) choice to balance the number of students for each case. Each remaining case has 5 or 6 students assigned to it. If something has come up and you have a scheduling problem with your case assignment or if your name does not appear for any case, please contact the professor as soon as possible.

Case #1: Spending Incentives in STAR

Brianna Carrier
Hamish MacPhail
Katherine Powers
Emily Thiel
Rory Tikalsky
